I just talked with Mark, and he agreed that your statement is appropriate. Thanks!

Ok, I'll let him know. Sam also wants to know about whether we've begun the process of assigning liability for the site, specifically if Glencore represents CFAC and is thus a PRP. Not sure its time to get into that—best answer is “liability determinations will be part of the SF process as we move forward?” but wanted to check and see if you had thoughts on best response.

Thanks, Cynthia. I'll send him a note, can you remind me of the actual deadline?

Hi, All.

Do we need to request a correction of the deadline for public comments at the end of the story?
